

# Rehabilitation, Nursing Science & Sport (RV&S) University Medica

The Department of Rehabilitation, Nursing science and Sport has been re-accommodated in the former W building. The project involved expanding the building from three to seven storeys.

## The project

The new building W is connected to building B at first floor level by a walkway bridge. The new accommodation consists of the following parts:

Ground floor: equipped with swimming pool, exercise rooms and additional activities. To allow for the pool and equipment the ground floor is also partly basement.

First floor ('patient's floor'): the treatment rooms and link to the next door building . This floor is also the UMC entrance level and has an outpatient function.

Second floor ('office floor'): offices were organised around Het Nieuwe Werken principles (activity orientated).

## Main Contractor

The project was delivered by [MedicomZes](#) (a trading name of Visser & Smit Bouw bv).
