

## Major maintenance of facades and roofs, Poortgebouw

In May 2010 commenced the large-scale maintenance of the facades (12 000sqm) and roofs (11 000sqm).

### The project

All the exterior wooden frames were treated for rot and repainted. All of the roof slates were locally reconditioned and all the lead seals and zinc gutters were partly renewed. Roof hooks were also installed in order to carry out subsequent maintenance safely. New awnings were installed throughout the building. To carry out the work safely there were 11 000sqm of scaffold erected.

### Main Contractor

This project was delivered by [MedicomZes](#) (a trading name of Visser & Smit Bouw bv).

### Facts and figures

**Site**

Leiden

**Client**

MediPark B.V.

**Status**

Completed
