

CPI Laboratory DSM

Design and renovation of the CPI lab (Center Progress Innovation lab), on the grounds of DSM in Delft.

The project

Besides the design we also carried out construction work and coordination of other disciplines (including laboratory furniture). The works involved a gross floor area of approximately 2000sqm spread over six floors. Including, offices, the canteen, changing rooms and laboratories.

Main Contractor

This project was delivered by [MedicomZes](#) (a trading name of Visser & Smit Bouw bv).
