

Rehousing E-pier

Rehousing of E-pier for luggage, KLM, FALCK and loading docks.

The project

Rehousing of E-pier for luggage, KLM, FALCK and loading docks.

The works involved the following:

- On airside, behind customs, (re) building of various building facilities and adaptations on the second floor and the ground floor of the operational E-pier, with a GFA of approximately 1500sqm;
- The daily operations of the airport were not disturbed;
- Security areas, including security, safety and tighter access control;
- The construction coordination with contractors and subcontractors.

Main Contractor

This project was delivered by VolkerWessels Bouw Schiphol (a trading name of Visser & Smit Bouw bv).
